

City of Livermore

Miscellaneous Storm Drain and Culvert Repairs

City Project No. 2013-25

This project will install a catch basin, about 400' of 12" storm drain line, and a storm drain manhole to alleviate an existing drainage problem on the west side of Greenville Road north of Marathon Drive. The project has been included in the Annual Sewer Replacement Project, which was awarded to RGW Construction in June 2015 and is currently under construction.

If you need more information regarding this project, please contact Jim Vingo, Project Manager, at (925) 960-4540.
